

HDS[®] PRO

See more and catch more with HDS[®] Pro, the ultimate fishfinding tool. With built-in support for the new, ultra high-definition Active Imaging[™] HD and the new, highest-resolution live sonar ActiveTarget[®] 2 you'll see more clearly and find more fish than ever before.

ActiveTarget 2

ActiveImaging HD

ActiveTarget 2 Live Sonar

Catching fish is easier when you can see them moving in real time with ActiveTarget[®] 2 Live Sonar. Delivering a smoother and more consistent image across the entire range, ActiveTarget[®] 2 gives you the full live-action picture in forward, down and scout views. Anglers also have the option to add a second system for more simultaneous views.

ULTIMATE FISHING SYSTEM

HDS[®] Pro forms the heart of the Ultimate Fishing System, offering full networking and bow-to-stern boat control spanning Power-Poles, trolling motors, autopilots, engines, radar, communications, and much more.

KEY FEATURES:

- High-definition Active Imaging HD-ready with CHIRP/SideScan/DownScan Imaging
- FishReveal[™] with new SideScan* view as well DownScan (requires S3100 and Active Imaging HD FishReveal transducer)
- High-resolution ActiveTarget 2 Live Sonar-ready
- Supports two ActiveTarget 2 Systems for multiple views, simultaneously
- Support for new ActiveTarget[®] Scout and Ghost[®] 360 chart overlays
- Available in 9, 10, 12 and 16-inch display size
- Real-time mapping available with C-MAP[®] Genesis Live.
- Large programmable keys for 10, 12 & 16 sizes
- Touchscreen control of Lowrance[®] & MotorGuide[®] Trolling Motors, Autopilot, Outboard Pilot and Power-Pole[®] anchors.
- NMEA 2000[®], Wireless and Bluetooth[®] connectivity
- SolarMAX[™] HD Touchscreen viewable through polarized lenses

Active Imaging HD

Level up to the ultimate fishfinding clarity with ultra high-definition Active Imaging HD[™] sonar (up to 1.2MHz). Get the clearest images of fish and structure with Lowrance[®] CHIRP sonar. And experience new FishReveal[™] SideScan* and DownScan views, to easily identify fish to the sides and beneath the boat.

(*requires S3100 Sonar module and relevant transducer)

C-MAP

Powerful, intuitive charts are key to any fishing system, helping anglers find the best fishing spots and navigate there safely. C-MAP[®] charts bring great routes, social layers, and even real-time mapping with the powerful Genesis[®] Live. So you can spend more time catching fish and less time finding them.
